

Aegypoecus, NOM NOV.—In the *Entomologist*, 1938, 71 : 2, the name *Helluo* was used for a genus of Mallophaga occurring on the Aegyptinae. It has since been pointed out that this name is pre-occupied by *Helluo* Bonelli, 1809, and therefore the name *Aegypoecus* nom. nov. is proposed for *Helluo* Clay and Meinertzhagen, 1938.—
THERESA CLAY and R. MEINERTZHAGEN.
