

## NOTE

### A NEW NAME FOR *COLPOCEPHALUM ABBOTTI* PRICE (MALLOPHAGA: MENOPONIDAE)

Price (1976. Syst. Entomol. 1:63) described *Colpocephalum abbotti*, and based the specific name on that of the ibis type-host, *Threskiornis aethiopica abbotti* (Ridgway).

Unfortunately, Kellogg (1899. Occas. Pap. Calif. Acad. Sci. 6:36) had previously described *Colpocephalum abbotti* for a louse taken from a gull, *Larus* sp. I had overlooked this earlier use of *C. abbotti* due to the fact that this name is now associated with the menoponid genus *Actornithophilus* Ferris and is further a junior synonym of *A. piceus* (Denny). A shortcoming in my card file failed to bring this to my attention. I thank Dr. R. C. Dagleish, Rensselaerville, New York, for being more efficient and for pointing this homonymy out to me.

So, with *C. abbotti* Price a junior primary homonym of *C. abbotti* Kellogg, I hereby provide *Colpocephalum tandani* nomen novum to replace *C. abbotti* Price. This name is in recognition of the numerous excellent contributions of Dr. B. K. Tandan to Mallophaga taxonomy.

Roger D. Price, *Department of Entomology, Fisheries and Wildlife, University of Minnesota, St. Paul, Minnesota 55108.*
