

(Noona Dan Papers No. 63.)

Mallophaga collected by the Noona Dan Expedition in the Bismarck and Philippine Islands.

By

K. C. Emerson

U. S. National Museum, Washington

and Børge Petersen

Zoological Museum, Copenhagen.

During the Noona Dan Expedition (Petersen, 1966 : Ent. Meddr. 34 : 283—304) a small collection of Mallophaga was made, mainly during the stay in the Bismarck Archipelago. The collection did not contain any new taxa, but a list is given recording localities and hosts.

All determinations were made by K. C. Emerson. The material is located in the Zoological Museum, Copenhagen.

MENOPODIDAE.

Actornithophilus totanus (Schrank, 1803).

Bismarck Isls. — MUSSAU: Talumalaus, 3 ♂, 2 ♀, 4 nymphs, 31 Jan. 1962. On *Heteroscelus incanus* (Gmelin); a new host record.

Chapinia hirta (Rudow, 1866).

Bismarck Isls. — NEW BRITAIN: Valoka, 1 ♂, 1 ♀, 9 July 1962. On *Aceros plicatus* (Forster).

Kelerimenopon minus (Piaget, 1880).

Bismarck Isls. — NEW BRITAIN: Credner I. near Rabaul, 8 ♂, 8 ♀, 20 nymphs. On *Megapodius freycinet eremita* Hartlaub.

Myrsidea sp. 1.

Bismarck Isls. — NEW BRITAIN: Credner I. near Rabaul, 1 ♂, 3 ♀, 1 nymph, 17 July 1962. On *Pachycephala pectoralis dahl* Reichenow.

Myrsidea sp. 2.

Bismarck Isls. — NEW BRITAIN: Credner I. near Rabaul, 1 ♂, 5 ♀, 2 nymphs, 17 July 1962. On *Aplonis metallica nitida* (Gray).

LAEMOBOTHRIIDAE.**Laemobothrion maximum** (Scopoli, 1763).

Bismarck Isls. — NEW BRITAIN: Valoka, 1 ♂, 1 nymph, 11 July 1962. On *Haliastur indus intermedius* Blyth.

Philippines. — TAWI TAWI: Lapid Lapid, 1 ♂, 1 ♀, 19. Nov. 1961. On *Haliastur indus girrenera* (Vieillot).

Laemobothrion tinnunculi (Linnaeus, 1758).

Philippines. — TAWI TAWI: Tarawakan, 3 ♂, 1 ♀, 4 nymphs, 22 Oct. 1961. On *Falco serverus serverus* Horsfield.

PHILOPTERIDAE.**Alcedoecus latigenitalis** Eichler, 1944.

Bismarck Isls. — MUSSAU: Talumalaus, 6 ♂, 13 ♀, 26 Jan. 1962, 1 ♀, 1 Feb. 1962. On *Halcyon chloris matthiae* Heinroth.

Echinophlopterus protrusus (Piaget, 1871).

Bismarck Isls. — NEW BRITAIN: Valoka, 6 ♂, 6 ♀, 6 nymphs, 12 July 1962. On *Larius roratus goodsoni* Hartert.

Echinophlopterus sp.

Bismarck Isls. — NEW BRITAIN: Valoka, 3 ♂, 4 ♀, 12 July 1962. On *Geoffroyus heteroclitus heteroclitus* (Hombron and Jacquinet).

Goniodes sp.

Bismarck Isls. — NEW BRITAIN: Credner I. near Rabaul, 1 ♂, 2 nymphs, 17 July 1962. On *Megapodius freycinet eremita* Hartlaub.

Lipeurus latifasciatus (Piaget, 1890).

Bismarck Isls. — NEW BRITAIN: Valoka, 1 ♂, 6 ♀, 11 July 1962; 5 miles E. of Mt. Bango, 2 ♂, 6 ♀, 11 July 1962. On *Megapodius freycinet eremita* Hartlaub.

Paroncophorus javanicus (Rudow, 1869).

Bismarck Isls. — NEW BRITAIN: Valoka, 8 ♂, 7 ♀, 1 nymph, 9 July 1962. On *Aceros plicatus* (Forster).

Quadriceps conformis (Blagovestchensky, 1940).

Bismarck Isls. — MUSSAU: Talumalaus, 2 ♂, 2 ♀, 21 Jan. 1962. On *Heteroscelus incanus* (Gmelin); a new host record.

Summary.

Fourteen species are recorded from New Britain and Mussau (Bismarck Islands), and Tawi Tawi (Philippines). *Heteroscelus incanus* (Gmelin) is a new host record for *Actornithophilus totanus* (Schrank) and *Quadriceps conformis* (Blagovestchensky)
