

Park 4710.

18, Kensington Park Gardens,
London, W.11.

Decemeber 22, 1937.

Dear Dr. Werneck,

We find it very difficult to get hold of mammal Mallophaga here. May we, in exchange for the bird Mallophaga that you send to us, send you some books on Mallophaga which you want and have not got. Please let me know what you think of this plan of exchange, ^{and} ~~or~~ whether there are any books which you would like.

yours truly,

Miss Clay
