Dear Sir,

I send today the  
McIlhenny colle of Mallophaga  
from Point Barrow which you  
kindly offered to work over.

A report on the whole  
collection will be published as  
soon as the special collections  
are reported upon.

Very truly yours

Thomas Stone

Cochabamba, Bolivia.

8 Aug. 1901

Mr. V.L. Kellogg

Stanford Univ.

Cal., U.S.A.

Dear Sir -

I have now ready for you 16 tubes of Mallophaga and three humming birds marked A.B.C. and hosts of the parasites numbered respectively 13-14-15 - There is also a small dried fish in the box which you can give to Dr. Gilbert. I will dispatch this parcel by Registered Mail from Oruro in four or five days. I have also some fishes for Dr. Gilbert but will dispatch them later.

For these you can put \$10.00 in the Bank of Palo Alto for me and if you want more I can save them for you. I will be in Antofagasta about Oct. 1st.

Better address me in care of H.B. W's Consul at Valparaiso, Chile.

Yours truly,

Perry O. Simons.
