## Conference Update April 2018

### **Registration and Abstract reminder**

This note is to remind everyone that theoretically registration deadlines for students attending **6th International Conference on Phthiraptera**, and wanting to make an application for support, are on Monday of next week. If you are having problems please contact Oldřich Sychra ([sychrao@vfu.cz](mailto:sychrao@vfu.cz)) or Dana Cernoskova ([dana.cernoskova@longaro.cz](mailto:dana.cernoskova@longaro.cz)) to let them know what the issue is. We may be able to extend this deadline for a short time, especially if we receive more registrations from full paying attendees, i.e. the more registration fees we receive the more we can offer in support.

Also Monday is the deadline for submitting an Abstract for a presentation, whether a poster or an oral presentation. If you want to show others what you are doing (or even planning to do) this is the opportunity.

### **Bibliography listing 2017**

For all those interested in the literature on Phthiraptera and other Psocodea, I have finally put together what, at this stage, appears to be a complete list of 2017 publications (plus a supplementary list of publications from 2016 that were slow to show up on the various searches). If I have missed one of your publications please let me know and it will go on the next supplement.

Looking forward to meeting you all again in Brno, Ian
